ICPSR PROCESSING NOTES FOR #00013

General Election Data for the United States, 1950-1990
– National, 1980

1) **Collection Update:** The SPSS setup files were updated to conform to current standards. SAS and Stata setup files, as well as SPSS and Stata system files, a SAS transport (CPORT) file, an R data file, a tab-delimited data file, and a PDF codebook have been added to the collection.

2) **Variable Labels:** Users may notice that some variable labels refer to "ICPR". This reference is to a former name for ICPSR.

Data Completeness Report

Notes: (1) Variables are individually listed only if they have greater than 5% missing data. These variables are listed under the appropriate percentage category in the order in which they appear in the data file. (2) The Data Completeness Report only captures information about system missing or other values that are declared missing. Codes that have a label implying that they are missing but that are not declared missing values are not reflected in this report. Data users should consult the codebook for more specific information about missing values. (3) Some variables that have 100% missing data may have been blanked by ICPSR to protect respondent confidentiality. Data users should consult the codebook for more specific information about blanked variables. (4) Data do not contain skip patterns or skip patterns are not reflected in the data as coded.

Table 1: Distribution of Variables by Percentage of Missing Values--National, 1980

Variable Name and Label (Total Cases = 3133)		Percent of Cases with Missing Values
18.1% (23 of 127 variables)	have 0% Missing Values	
0.0% (0 of 127 variables)	have 0% - 1% Missing Values	
0.0% (0 of 127 variables)	have 1% - 3% Missing Values	
0.0% (0 of 127 variables)	have 3% - 5% Missing Values	
39.4% (50 of 127 variables)	have 5% - 10% Missing Values

ICPSR 13

General Election Data for the United States, 1950-1990

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.
